

March 26, 1991

LB 254, 409, 511, 528, 579, 719, 748

Mr. Clerk, we have a roll call in reverse order.

CLERK: (Roll call vote taken. See page 1340 of the Legislative Journal.) 23 ayes, 12 nays, Mr. President, on the advancement of the bill.

SPEAKER BAACK: The bill does not advance. Do you have items for the record, Mr. Clerk?

CLERK: I do, Mr. President. Mr. President, your Committee on Education, whose Chair is Senator Withem, reports LB 719 to General File with amendments.

I have amendments to be printed to LB 579 by Senators Chambers and Schimek; Senator Robinson to LB 254; Senator Schmit to LB 409; Senator Morrissey to LB 511. (See page 1341 of the Legislative Journal.) That's all that I have, Mr. President.

SPEAKER BAACK: The call is raised. We will now proceed to LB 528. LB 170 was only on the agenda because we didn't know yesterday afternoon when we printed the agenda whether or not we would get to a vote on that and since it did not advance, it does drop to the bottom of the order. So now we will go to LB 528.

CLERK: Mr. President, 528 was a bill introduced by Senators Morrissey, Moore, Rod Johnson, Schimek, Hartnett, Coordsen, Smith, Lamb and Elmer. (Read title.) The bill was introduced on January 22, referred to Natural Resources, advanced to General File. I do have committee amendments pending by the Natural Resources Committee.

SPEAKER BAACK: To the Chair of the Natural Resources Committee, Senator Rod Johnson, on the committee amendments.

SENATOR R. JOHNSON: Speaker Baack, you've caught me off guard here but nonetheless I am...yeah, this is simply technical changes that harmonize the language that was submitted by the Department of Environmental Control and I'm praying that nobody asks me any questions about this. But it is technical in nature and simply harmonizing some of the language in the bill. So I would move the adoption of the committee amendments.

SPEAKER BAACK: Anyone wishing to discuss the committee amendments? Senator Morrissey.
